***Discussion on Orders #210, #211, #212***

Cahill stated the project has been estimated at a higher cost than originally planned. There are a lot of contingencies planned in, and some of those categories seem to be coming in high to make sure bases are covered. The further you get into the project the fewer variables there are. We are still working on figuring out the moving pieces. The city will qualify for a direct payment from the federal government for some eligible costs. The total project costs remain to be seen but will likely be higher than originally expected.

St. Hilaire and Flowers agreed that there is a fuller conversation to be had.

Houseman stated these three orders will be held this evening and asked if that would impact the ability to accept them.

Barrett stated most of the paperwork has not been received yet so there is not anything urgent at this time.

There was some discussion about a separate Finance and Property/Committee of the Whole meeting, but no date was set.

The motion to adjourn Committee on Finance and Property was made and seconded. A vote was taken, and the motion passed. The meeting adjourned at 7:55pm.
