The City of Beverly is holding an Open House to provide the public and interested parties with an opportunity to review draft elements of the Beverly Harbor / Waterfront Plan. These elements include a review of the existing conditions analysis, a draft vision statement, and recommendations for how the waterfront and harbor will be utilized in the future. City Planning staff and members from the Consulting team will be available to review the draft elements on a one-to-one basis, and discuss next steps. This will be another opportunity to learn more about the process and share comments relative to the draft plan.
